- **Six weeks training**
- **Preparation for placement**

Training Finishes:

Friday 26th October 2017

Placement Dates:

From the end of October 2017 for between 3 and 12 months.

Skill Share Training at our Centre for the Nations

The Skill Share Programme starts with five weeks of training at our Centre for the Nations in Llanelli, South Wales. During this time you will live in a community setting with trainees from different cultures and backgrounds – a great practical training ground for cross-cultural living.

Training focuses on discipleship and spiritual growth as well as specific preparation tailored to your upcoming placement. Where possible, this will include basic language tuition and input from one of our workers who has served in your placement country. Teaching is delivered by experienced field workers through engaging lectures and workshops.

We also connect you with a local church to serve alongside them in the local community. Serving with these projects is a great opportunity for you to learn how to share your faith in diverse contexts and with different people.

This time of preparation enables you to step out of your comfort zone, go on new adventures and overcome your fears. We hope to see you grow in faith and have a deeper relationship with God as you go through the course.

"It was rewarding to see Cambodian students grow in their grasp and knowledge of the English language as I taught them week by week."

- Joe

Skill Share Placement

Going on a Skill Share placement is a life-changing opportunity for you to serve with us in world mission. Placements from three months up to a year are arranged in consultation with our teams who are located in many nations around the world. Many of our workers are based within the [10/40 Window](#), the area with the greatest concentration of least reached peoples. The majority of our teams run projects working with communities in urban areas; we also work in rural locations where there is little to no church presence. As you step out and use your gifts and skills to support the projects of our teams, we hope you will be greatly inspired in your faith.

Our teams around the world are in need of those who can use their talents to share the Gospel with the local people. Sometimes people are needed to establish systems in the background, such as setting up an aid distribution database to register refugees in Turkey. On other occasions we need people to go out and use their gifts practically to help those in need, for example dental nurses going to support a dentistry project in Burkina Faso.

Our teams work in over 30 countries around the world on a diverse range of projects. We can arrange Skill Share placements with teams in Asia, Africa, the Middle East, and Europe. Could you go and share your abilities to work with our 'futsal' (a modified form of indoor football) project in Cambodia, train coffee baristas and roasters in Turkey, teach ballet in South Asia or maintain one of our centres in France or Spain? Previous Skill Share participants have set up computer systems at our centre in North Africa, taught football to young men in West Africa and helped with the running of a craft business in Mongolia.

"I was able to share my business experience to help equip local Mongolian women during my placement."

- Charli

Skill Share Course Costs

Training: £900

Insurance: £25-£45 per month approx.

Placement: £500 per month + flights & visa
